Councilperson Streetman made a motion to adopt this resolution. The motion was seconded by Councilperson Holleman.

Gas-Water-Sewer General Manager Mark Riggins said the City currently has two contracts with Fort Campbell, one for transportation of natural gas and one for staffing for running the gas system at Fort Campbell. He said the original contract was signed in 1958 for purchase of gas from the City, then Fort Campbell began purchasing directly from Tennessee Gas Pipeline in 2011 with the gas transported through the City's gas infrastructure. A new contract was subsequently agreed upon between the City and Fort Campbell in 2019 for firm transportation of natural gas to Clarksville. Mr. Riggins said this contract does not provide for interruptible service so Fort Campbell will pay a different rate than an interruptible customer. He said this contract will prevent any payments from becoming past due and will also establish a maximum daily quantity that Fort Campbell can purchase. He noted the contract will be reviewed annually. He said the effective date should be March 1 instead of April 1. Mr. Riggins said this contract must be approved no later than February 19.

Councilperson Allen and Councilperson Reynolds both stated they would abstain from voting on this resolution because of their working relationship with Fort Campbell.

## TRANSPORTATION STRATEGY 2020 + PLAN

Mayor Pitts said presentation of this Transportation Strategy 2020+ Plan had been delayed because of the COVID-19 Pandemic and noted this version was not final. He said it will be shared with members of the City Council and the citizens of their wards possibly resulting in revisions.

Mayor Pitts said planners estimate the population of the City of Clarksville will increase 40% over the next 20 years and this plan can be used to guide the City through the process to prepare for future transportation needs. He said the Plan addresses not only roadways, but also pathways, crosswalks, and sidewalks, prioritized to serve schools and public facilities, all to make the City more walkable, livable, and healthier.

Core Values were noted as accessibility, healthier outcomes, and prudent decisions for equitable projects. Mayor Pitts said the three-tier Plan has an estimated full completion cost of \$462,300,000. He said the Plan does not include currently budgeted sidewalk and intersections improvement projects and emphasized the Plan will change as it is reviewed, shared, and discussed. He said some projects will require state and federal funds.

Tier 1: Improvements to Rossvie Road improvements, Dunbar Road Realignment, Whitfield Road widening, 101st Parkway & Needmore Road intersection improvements, Tylertown Road & Oakland Road improvements, Exit 1 improvements, Spring Creek Parkway, Cunningham Bridge rehabilitation, Tiny Town multi-use path, Greenwood Avenue & Edmondson Ferry Road sidewalks, North Senseney Circle and Barkers Mill School sidewalks, and Main Transit Station Relocation.

Tier 2: Hazelwood Road improvements and sidewalks, Needmore Road improvements, Memorial Drive Extension, Old Farmers Road, Trough Springs Road, and SR-76 improvements, sidewalks and pathways for Riverside Drive, Vulcan property, Richview

Road, Memorial Drive, Peacher's Mill Road, Dale Terrace, and a St. Bethlehem transit hub.

Tier 3: Pea Ridge Road, Kraft Street, and N. Second Street improvements and sidewalks, Tracy Lane realignment, Union Hall Road, Kennedy Lane and Powell Road connectivity, Highway 48-13, Madison Street, Outlaw Field Road, Ringgold Road sidewalks and crosswalks, and northside transit hub.

Mayor Pitts said projects included in Tier 2 and Tier 3 may be reprioritized according to cost, right-of-way acquisition, utility relocation, design, and construction.

Funding resources for the proposed projects were identified as fuel taxes, sales taxes, and property taxes. Mayor Pitts said community presentations were being planned and noted the Plan would not be finalized until all elements have been considered. He said the City Council will be asked to vote on the final plan.

In response to Councilperson Holleman's question, Mayor Pitts said cost estimates of Tier 2 and Tier 3 projects were in present money value.

In response to Councilperson Streeman's question, Mayor Pitts said results of the 2020 Census would be considered with regard to funding the projects.

In response to Councilperson Reynolds' question, Mayor Pitts said bike paths will also be considered along with the sidewalk system. He said the Cunningham Bridge project would require state and federal funding and noted the City already had plans for new police precincts, salt sheds, and fire stations.

In response to Councilperson Knight's statement regarding the Governor's recent proposal for local recovery and rebuilding funds, Mayor Pitts said the Tennessee General Assembly must approve the state's budget before any funds are available for local governments.

In response to Councilperson Butler's inquiry, Mayor Pitts said recent repairs to the Downtown bus transfer station were necessary and relocation of the facility would require approval and funding by the Federal Government.

Councilperson Allen said the City Council will have to make serious decisions for funding this Plan for the benefit of the City's future.

Councilperson Garrett said the City should consider selling property as a revenue source to fund the Plan. Mayor Pitts said consideration will be given to property tax revenues for parcels that will change from agricultural use to a residential or commercial use.

Councilperson Garrett recommended consideration of implementing special revenue districts.

In response to Councilperson Evans' question, Mayor Pitts said additional buses and bus routes will be considered which would in turn create the need for transit hubs throughout the City. Councilperson Little and Councilperson Smith said additional bus facilities are needed in many areas.

Responding to Councilperson Richmond, Mayor Pitts said cosmetic elements are being reviewed for current bus facilities including solar powered shelters.

Regarding Councilperson Redd's statement relative to fuel tax and sales tax increases, Mayor Pitts said in either situation, the public must be made aware of what the additional revenue would be designated for.

In response to Councilperson Smith's question, Mayor Pitts said this Plan does not include extension of any services to the Google site on Hwy 79 according to state and federal guidelines.

## **Introduction**

This Citizen Participation Plan, as amended, has been prepared and implemented pursuant to federal regulations (U.S. Department of Housing and Urban Development [HUD] Regulations 24 CFR Part 91.105) to encourage and support public participation in the development of the Consolidated Plan (and subsequent annual updates to the Consolidated Plan) and the Analysis of Impediments to Fair Housing (AI).

The recommended actions in this Citizen Participation Plan are related to the planning and expenditure of funds provided to the City by the U.S. Department of Housing and Urban Development Office of Community Planning and Development for the following programs: CDBG, HOME, ESG, Section 108 Loan Program, and other such HUD funds as may be added with the approval of the Mayor and the Clarksville City Council.

## **Encouragement of Citizen Participation**

It is the intent of Housing and Community Development (HCD) to encourage citizens to participate in the development of the Consolidated Plan, Analysis of Impediments to Fair Housing, and substantial amendment(s) to the Consolidated Plan.

The goal of the Citizen Participation Plan (CPP) is to encourage participation by low-and moderate-income persons, particularly those persons living in areas designated by the City of Clarksville as a revitalization area, or other areas where CDBG funds are proposed to be used, and by residents of predominantly low-and moderate-income neighborhoods within the City.

This CPP assures that citizens, non-profit organizations, and other interested parties are afforded adequate opportunity to review and comment on plans, programs, activities and reports covering the City's federally funded housing and community development programs.

HCD encourages the participation of local and regional institutions and other organizations (including businesses, developers, community-based and faith-based organizations) in the process of developing and implementing the Consolidated Plan, Analysis of Impediments to Fair Housing, and any revisions related thereto. HCD also encourages the participation of all its citizens, including minorities and non-English speaking persons, as well as persons with disabilities.

HCD will consult with the Clarksville Housing Authority, the City's Housing and Community Development Council Committee, regional public housing agencies, residents of public and assisted housing developments (including Resident Advisory Boards, resident councils, and resident management corporations) as a part of the process of developing and implementing the Consolidated Plan and any amendments related thereto. The City's Housing and Community

Development Council Committee will provide recommendations to the Mayor and full Council on applications submitted for the Consolidated Plan.

### **Technical Assistance**

HCD will provide technical assistance with program applications for all Housing and Community Development programs including CDBG, HOME, and ESG.

### **Access to Records**

HCD will provide residents of the community, public agencies, and other interested parties with reasonable and timely access to information and records relating to the jurisdiction's AI and Consolidated Plan for the preceding 5 years.

The public will be provided reasonable access to housing assistance records, subject to state and local laws regarding privacy and obligations of confidentiality. Confidential documents will be set apart from public information; requestors of this information will be so informed.

### **Availability to the Public**

Copies of standard documents including the Consolidated Plan as adopted, Consolidated Plan Substantial Amendments, AI, and the Annual Performance Report will be available to the public for review at the following locations:

- Housing and Community Development – 1 Public Square, Suite 201
- Clarksville-Montgomery Public Library – 350 Pageant Lane
- City of Clarksville Housing and Community Development Web Page

Upon request, standard documents will be made available in a form to accommodate persons with disabilities, or persons that do not speak English as their primary language, or deaf/blind persons.

Additional single copies of all standard public documents may be obtained from Housing and Community Development subject to fees established by the City of Clarksville.

## **Public Meetings**

Public meetings will be held at key stages of the application process (annual or supplemental) to obtain the public's view and to provide the public, to the greatest extent possible, with responses to their questions and comments. HCD holds public meetings to obtain input on housing and community development needs, development of proposed (new) activities, proposed strategies and actions for affirmatively furthering fair housing that are consistent with the Analysis of Impediments (AI) and other program compliance requirements as directed by HUD.

To obtain the views of residents of the community on housing and community development needs, including priority non-housing community development needs and affirmatively furthering fair housing, HCD will conduct a minimum of two (2) public meetings prior to submission of the Five-year Consolidated Plan.

- Prior to submission of the Annual Action Plan and for amendments related thereto, HCD will conduct a minimum of two (2) public hearings in accordance with the minimum requirements listed below.
- Public meetings will be held after a minimum of seven days (7) notice to the public. "Notice" means a legal notice that is published in a newspaper at least one week (7 days) prior to the date of the first public meeting. The minimum comment period is thirty days, commencing from the date of the first legal notice publication.
- Public meetings will be held at times and locations that are convenient to potential or actual beneficiaries and with accommodations for the disabled. There will be a virtual streaming option for public hearings. At all public hearings, upon advance request, interpreters will be available for those who do not speak or understand English, or those that are hearing impaired or sight impaired.
- Housing and Community Development will provide residents of the community with reasonable and timely access to public meetings, in accordance with Section 504 of the Rehabilitation Act of 1973, and the regulations at 24 CFR Part 8; and the Americans with Disabilities Act and the regulations at 28 CFR parts 35 and 36, as applicable.

The example below represents a typical grant program year.

## **Emergency**

In the event of a local, state or federally declared disaster or emergency where in-person participation may not be feasible or large gatherings may be considered a public health risk, HCD may opt to conduct public hearings and meetings virtually via conference call or live web-streaming. During these virtual meetings, the public will have the ability to ask questions and provide comments in real time. The public comment and display period shall be no less than five days. Accommodations will be made for people with disabilities and/or for those who do not speak or understand English as their primary language upon request. Documents for public review will be shared via the City's website. Copies of the document may be mailed or emailed upon request.

## **Development of the Consolidated Plan and Analysis of Impediments to Fair Housing**

Before the Consolidated Plan (and/or annual updates) is approved by the Clarksville City Council and submitted to HUD (i.e., mid-May), Housing and Community Development will make a draft of the Consolidated Plan available to citizens, public agencies, and other interested parties for review and comments.

Interested parties are encouraged to submit comments electronically or by U.S Mail to Housing and Community Development. Before the City adopts the Consolidated Plan, HCD will make available to residents, public agencies, and other interested parties' information that includes the amount of assistance the City expects to receive (including grant funds and program income) and the range of activities that may be undertaken, including the estimated dollar amount that will benefit persons of low- and moderate-income.

If displacement will occur due to any planned actions, HCD will comply with the requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, as described in 49 CFR Part 24.

Housing and Community Development will publish its draft and final Consolidated Plan so that all affected residents will have sufficient opportunity to review and comment on the plans. A summary describing the contents and purpose of the Consolidated Plan and the AI will be published in one or more newspapers. The draft Consolidated Plan and AI will also be posted on the City's website.

A period of not less than 30 calendar days will be provided to receive comments from residents of the community regarding the draft Consolidated Plan and AI. All comments will be included in the final Consolidated Plan.

## **Amendments to the Consolidated Plan / Annual Action Plan**

Occasionally, it may be necessary for Housing and Community Development to process a substantial amendment to the Five-Year Consolidated Plan or the One Year Action Plans to allow for new CDBG funded activities, modification of existing activities, or other HUD Community Planning and Development (CPD) program administrative actions.

Any proposed amendment that is considered a substantial amendment is subject to the Citizen Participation process. This process involves Housing and Community Development Council Committee review, Mayor approval, at least one public meeting, formal action by the Clarksville City Council, and approval by HUD. A thirty (30) day public notice is published to provide the opportunity for the public to review and comment on a substantial amendment.

Substantial amendments require at least one public meeting. A substantial amendment public meeting may be held after a minimum of seven days (7)

notice to the public. “Notice” is a legal notice that is published in a newspaper at least seven (7) days prior to the date of the first public meeting. Minimum comment period is thirty days, commencing from the date of the first publication. If HCD elects to hold more than one public meeting, a legal notice should be published two times with seven days apart between notices.

Public meetings will be held at times and locations that are convenient to potential or actual beneficiaries and with accommodations for the disabled. At all public hearings, upon advance request, translators will be available for those who do not speak or understand English, or those that are hearing impaired or sight impaired.

Housing and Community Development will consider all comments or views received from the public concerning proposed substantial amendments in accordance with 24 CFR 91.105 (c) (3). A summary of these comments and views, including comments or views not accepted (and the reason why) shall be included with the substantial amendment.

Amendments to the Consolidated Plan are divided into four categories: Substantial Amendments, Minor Amendments, One-Percent Amendments, and Emergency Amendments.

Housing and Community Development is required by HUD [24 CFR 91.505 (b)] to identify the criteria to be used in determining if a proposed action will be considered a “Substantial Amendment”. The following criteria will be used:

### **Substantial Amendments**

1. Addition of a new project not previously described in the Consolidated Plan or Annual Action Plan.
2. Deletion of any project previously described in the Consolidated or Action Plan.
3. Change in the purpose, scope, location or beneficiaries of an activity or project previously described in the Consolidated Plan or Action Plan.
4. Change in the use of CDBG funds from one eligible activity to another.
5. Change in total dollar amount allocated or budgeted for an activity by more than \$50,000.
6. Substantial Amendments require at least one public meeting and a minimum thirty-days (30) comment period.
7. All Substantial Amendments require approval from Housing and Community Development Council Committee, City of Clarksville Mayor, and the Clarksville City Council.

## **Minor Amendments**

Minor amendments represent any changes to Consolidated Plan or Action Plan activities that do not qualify as substantial amendments and are more than one percent change in funding up to \$50,000. Minor amendments require the signature of the City of Clarksville Housing and Community Development Department Director or designated representative, but do not require a public notice or approval from Community Development Council Committee, City of Clarksville Mayor, or City Council.

## **One-Percent Amendments**

One-percent amendments represent any change in the funded amount of an activity that is one percent or less. These amendments require the signature of the City of Clarksville Housing and Community Development Department director or designated representative, but do not require a public notice or approval from Community Development Council Committee, City of Clarksville Mayor, or City Council.

## **Emergency Amendments**

It may be necessary to expedite substantial amendments to the Consolidated Plan in the event of a declared disaster or emergency. These expedited substantial amendments may include funding new activities and/or the reprogramming of funds including canceling activities to meet needs resulting from a declared disaster or emergency. Therefore, the City of Clarksville may utilize CDBG funds to meet these needs with a 5-day public comment period instead of a 30-day public comment period, which is otherwise required for substantial amendments. These amendments require approval from Housing and Community Development Council Committee, City of Clarksville Mayor, and the Clarksville City Council.

## **Consolidated Annual Performance Evaluation Report (CAPER)**

Housing and Community Development is required to submit the CAPER for its CPD programs to HUD no later than 90 days from the end of a program year (i.e. late – September). The CAPER describes how funds were spent and the extent to which these funds were used for activities that benefitted low and moderate-income persons.

Housing and Community Development will publish a legal notice that its CAPER is available for review, so the public will have sufficient opportunity to review and comment on the report. The notice will be published in one or more local newspapers. There is a 15-day public comment period prior to the submission of the CAPER to HUD. Housing and Community Development will consider any citizen comments or views received in writing, or verbally at public hearings. A

summary of comments and views will be attached to the final CAPER to be submitted to HUD.

### **Anti-Displacement and Relocation**

## **CITY OF CLARKSVILLE HOUSING AND COMMUNITY DEVELOPMENT POLICIES ON DISPLACEMENT FOR COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) and/or HOME FUNDED ACTIVITIES**

Residential Anti-Displacement and Relocation Assistance Plan under Section 104(d) of the Housing and Community Development Act of 1974, as amended.

Housing and Community Development, in accordance with Federal Regulations for Displacement, 24 CFR 570.606(b), hereby issues this statement of policy regarding the displacement of persons by CDBG or HOME Program funded activities.

This Plan certifies that any entity receiving CDBG or HOME Program funds will replace all occupied and vacant units that will be demolished or converted to a use other than as low/moderate income housing.

All replacement housing will be provided within three years of the commencement of the demolition or rehabilitation relating to conversion. This includes any property obtained through a public undertaking. Before obligating or expending funds that will directly result in such demolition or conversion, the entity will make public and submit to the HUD Field Office the following information in writing.

- A description of the proposed assisted activity;
- The general location on a map and approximate number of dwelling units by size (number of bedrooms) that will be demolished or converted to a use other than for low/moderate income dwelling units as a direct result of the assisted activity;
- A time schedule for the commencement and completion of the demolition or conversion;
- The general location on a map and approximate number of dwelling units by size (number of bedrooms) that will be provided as replacement dwelling units;
- The source of funding and a time schedule for the provision of replacement dwelling units, and

- The basis for concluding that each replacement dwelling unit will remain a low/moderate income dwelling unit for at least 10 years from the date of initial occupancy (i.e.: Deed of Trust, Deed Restriction, etc.).

Housing and Community Development or the subrecipient will provide relocation assistance, as described in 570.606(b)(2), to each low/moderate income household displaced by the demolition of housing or by the conversion of a low/moderate income dwelling to another use. Benefits will be provided to relocatees and displacees according to the calculation of benefits derived pursuant to requirements of regulations promulgated under the Uniform Property Acquisition and Relocation Act of 1970, as amended.

### **Assistance to Aliens**

An alien who is not lawfully present in the United States is prohibited from receiving assistance under the Uniform Relocation Act, per 49 CFR 24.208, and assisted housing programs. Circumstances may dictate that determination that an alien is ineligible would result in exceptional and extremely unusual hardship to a spouse, parent, child who is a United States citizen. A final determination on the eligibility of the request will be made by HUD before any assistance is provided.

### **Permanent Displacement**

Displacement is defined as follows: Permanent movement of person(s) or other entities from a dwelling unit or business location resulting from CDBG or HOME-funded code inspections, rehabilitation, demolition or acquisition. Where appropriate, Housing and Community Development may use CDBG funds to pay for relocation-related costs in projects using Low Income Housing Tax Credits.

To minimize displacement and mitigate adverse effects, the policy shall consist of the following steps, in the event displacement is caused by current or future CDBG or HOME Program-funded projects:

- Avoid or minimize permanent displacement whenever possible and only take such action when no other viable alternative exists.
- The impact on existing persons and properties will be considered in the development of CDBG and HOME Program funded projects.
- Citizens shall be informed of CDBG or HOME Program project area(s) through information made available as part of the annual proposed and final statements on use of CDBG and HOME Program funds.
- Current regulations, HUD notices and policies will be followed when preparing informational statements and notices.

- Written notification of intent will be given to eligible property owners who may be displaced and/or relocated due to an approved project activity.
- Assist those displaced in locating affordable, safe, decent and comparable replacement housing.
- Ensure that “just compensation” for CDBG or HOME Program acquired property (as determined by appraised fair market value) is paid with relocation benefits, if applicable.
- Provide for reasonable benefits to any person permanently displaced because of the use of CDBG funds to acquire or substantially rehabilitate property.
- Reasonable benefits will follow established policies set forth in applicable federal, state and local regulations.
- Provision of information regarding equal opportunity and fair housing laws to ensure that the relocation process does not result in different or separate treatment because of race, color, religion, national origin, sex, handicap, or source of income.
- Displaced families will be given a preference through the Housing Choice Voucher Program, Conventional Public Housing or any other federally funded program for which they might qualify. This priority is contingent upon availability of certificates, vouchers or placement coupons by the agency certified to handle assistance in the jurisdiction.

### **Temporary Displacement**

CDBG or HOME Program funded activities may involve temporary displacement. While strict adherence to provisions of the Uniform Relocation Act is not specified, it is the policy of Housing and Community Development that all subrecipients shall take steps to mitigate the impact of CDBG or HOME Program funded code inspections, rehabilitation, demolition or acquisition that results only in temporary movement of person(s) from a dwelling unit. Such temporary displacement primarily involves demolition and reconstruction of a single-family owner-occupied home. Where appropriate, Housing and Community Development may use CDBG funds to pay for relocation-related costs in projects using Low Income Housing Tax Credits. Accordingly, the citizens involved in a temporary movement shall be fully informed of the below matters and appropriate steps shall be taken to guarantee that fair and equitable provisions are made to:

- Ensure that owners receive compensation for the value of their existing house prior to demolition.
- Receive temporary living accommodations while their CDBG or HOME Program funded unit is being demolished and reconstructed.

- Move and temporarily store household goods and effects during the demolition and reconstruction evolution.
- Reimburse all reasonable out-of-pocket expenses incurred relating to the temporary relocation, including moving costs and any increased rent and utility costs.

## **Complaints**

Written complaints from City residents related to the Consolidated Plan, amendments, AFH, revisions, and the performance report will receive careful consideration and will be answered in a written response within 15 business days (where practicable) to every written resident complaint.

Written complaints should be sent to the Director's Office at the following address: City of Clarksville Housing and Community Development, 1 Public Square, Suite 201.

## **Civil Rights, Complaints and Grievance Process**

Title VIII of the Civil Rights Act of 1968 is known as the Fair Housing Act. The Act, as amended in 1974 and 1988, prohibits discrimination in the sale, rental, and financing of dwellings, and in other housing-related transactions, based on race, color, national origin, religion, sex, familial status, and disability.

These seven classifications are collectively termed federally protected classes. The federal familial status provision protects children under the age of 18 living with parents or legal custodians, pregnant women, and people securing custody of children under the age of 18.

HCD program staff will provide a written response to all written citizen complaints received related to the Consolidated Plan, Consolidated Plan amendments, and performance reports within 15 working days from receipt of the complaint. Citizens not satisfied with the staff response may request a review of the complaint by the City of Clarksville Housing and Community Development Director. Reviews may be requested by telephone, email or letter to the Director and should include a summary of the complaint as well as the summary of the response from the HCD program staff.

## **City of Clarksville**

My grandson has played these sports and loves the teammates, experience, and learning commitment. Tiny Town is growing so fast his basketball league went from 50 players to adding over additional 150 players this year!!! This would be excellent facility that is truly needed. The teams are already there and growing!" |

| Deanna McLaughlin | Clarksville, TN | 2016-06-10 | "I agree with Councilman Garrett! If city tax payers are expected to build this project, it needs to be inside the city limits. The Tiny Town Road location is accessible from many roads that connect to Tiny Town Road. Tiny Town Road has room for private development that may come as a result of the athletic complex. Improved property value increases tax revenue without a tax increase."              |
| Charles Hand      | Clarksville, TN | 2016-06-10 | "The Tiny Town site is the obvious location due to population and ease of access of those living in this high growth area. Also, this location makes business sense as visiting teams will be exposed to Clarksville and have the opportunity to spend money while here. The interstate location will not give visitors the opportunity to explore our city and would contribute little revenue to our economy." |
| Ron Erb           | Clarksville, TN | 2016-06-10 | "I am signing because the Athletic complex needs to be convenient for the people of Clarksville and be close to Clarksville's restaurants and services. This location provides convenience and supports Clarksville's business, local jobs and increase revenues for the city."                                                                                                                                  |
| Angela Hermentt   | Vail, AZ        | 2016-06-10 | "As a military family living in the Tiny Town/Exit 1 area I feel that this sports complex would be a great addition to the city. Having bought our home off post it is not convenient to use the facilities on post. We enjoy being a part of the community and would like to see our tax dollars spent on projects like this that will improve the city."                                                       |

| Christopher Garcia | Clarksville, TN | 2016-06-11 | "There is a ton of activity in that area with nowhere to go except to Ft. Campbell or Wilma Rudolph. Heritage Park is nice and has just recently been improved, but while the Tiny Town area is close in proximity, it has much more residents and much more area to expand that would benefit GREATLY from athletic facilities instead of more fast food chains that no one needs. It can be so much more of a nicer area that is unfortunately being occupied by too much traffic with nowhere to go and too many fast food chains instead of nice shops/local stores and areas for kids and families to use in a positive way." |
| Kari Childs        | Clarksville, TN | 2016-06-11 | "The Tiny Town and Exit 1 areas need some parks and community areas. This needs to be planned and completed before all of the available land is developed into housing and shopping. Not everyone can use Ft Campbell, and it is not convenient. All home owners pay taxes to the city, not the Ft Campbell installation."                                                                                                                                                                                                                                                                                                         |
| Christina Hayes    | Clarksville, TN | 2016-06-11 | "Tiny Town is a hidden gem and it's time we let it shine!I agree with everything Mr. Richard Garrett has stated. Having this facility on the North Side of Clarksville is a way to give back to our community. Having this valuable resource is great for our children and their families. In the long run I feel this will also help with the economic growth and show the great potential that Tiny Town area has to offer."                                                                                                                                                                                                     |
| John Peterson      | Clarksville, TN | 2016-06-11 | " Because everything is built on the southside or New Providence area never on the northside, and I think the majority of the revenue spent in the city comes from the military so it's about time to start showing a little respect to the military families. I live off Tinytown Road and I've had 4 of my neighbors move on the post because there's nothing off post for their children"                                                                                                                                                                                                                                       |

| Michael Mealhouse  | Clarksville, TN | 2016-06-11 | "I have 2 very active kids, one who wants to play soccer and the other wants to play rugby. There are no local rugby teams for my son at 4 years old. We just PCSed from Colorado Springs and they have great outdoors programs all over the city. It seems like for us to do anything for my kids to get out and play we have to drive into the city and with school for them both it just isn't feasible. The community needs something like this for the families to bond instead of just developing apartments. Thanks know you for your consideration."                                                                       |

| Michael Negrón  | Clarksville, TN   | 2016-06-11 | "We need a park and facilities on the North side. There is nowhere for the kids to play except for in the street or their driveway. Small children have no swing sets to play on. Elders have no park bench to rest and socialize with the community. There is no sporting facilities for our youth to get out and exercise and promote healthy living. Its time to take care of your citizens on the North side. Being military should not be a factor. We pay taxes just like everyone else. Build this sports complex!Michael Negrón"                      |

| Kim Locklear    | Clarksville, TN   | 2016-06-11 | "I am signing this petition because I am a citizen of the Tiny Town Rd area, and we see much growth in this area, unfortunately 95% of it is for places to eat, store your personal belongings or shop. That is a great thing, but we are leaving out the most important part of our future, which is our children. Our children in this area has to travel across town if we choose for them to be involved in anything with sports. With military hours , and fighting the traffic to get our children across town after work, just doesn't leave much room |

| Jessica Small    | Clarksville, TN | 2016-06-11 | "It is needed. Tiny town rd has opportunities for growth and progression and it's about time it's brought to the forth front to enhance our community and improve daily activities with in our community. Growth, opportunity, and involvement is essential to meet the needs of members of our town. Let's put our taxes to good use back into our community. Let's enjoy our town instead of needing to travel out to enjoy the things that should be offered right here in Clarksville and if Tiny Town Road has the means to do so let's make it HAPPPEN."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| William Martin   | Clarksville, TN | 2016-06-11 | "We need to cater to Clarksville as a whole not just certain areas of town we need to shed this old way of thinking and grow this will bring more jobs with the addition of sports complexes that will give the youth something to do which will get them out of the house and around there peers and will make them more competitive and less likely to be around gangs and mischevious activity should be doing not sitting in the house or on phones or video games it will also give the parents a place they can go and work with there children or workout them selves basketball courts in/out are needed more than any other sport then football and track we have plenty of soccer fields and baseball fields around Clarksville not many kids play rugby swimming pools in and out would be good and there need to be at least 3 of these complexes with people who care about kids and the community not people who look at it like its just a job positive adults can breed positive kids. It's must be diverse for all races kids go to school with" |

Perhaps this could help with other areas such as juvenile delinquency. Provide something for kids to do within their community. Just a thought."                        |

| Vanessa Price      | Clarksville, TN | 2016-06-11 | "I completely agree that it's time for the city to invest in North Clarksville. The excuse that we use Ft Campbell amenities is just offensive. As a retired military family we have invested 16 years in Clarksville so far. It's long overdue for the city to invest in the tiny town area. The city has no problem issuing building permits and rezoning to build more houses. Let's get this Athletic Complex going." |

The level of corruption and mishandling of tax dollars are obvious. This complex could turn things around on so many levels. With so many young families this complex is actually a no-brainer. With the Summer Youth Program crumbling to pieces this would be great for the north side of town. Maybe the hundreds of residents could get in shape safely instead of risking their lives on Tiny Town, Needmore and Trenton Rd with all this towns bad drivers." |

| brad richardson    | Clarksville, TN | 2016-06-12 | "Clarksville has had a High School Rugby team that has competed in the final playoffs for State championship the last two years. This year we hosted a team from Nashville. We had to do so on a run down field on Fort Campbell because the City would not let them use a nice field in Clarksville. What an embarrassment, to have the honor of hosting the best in the State, and to be forced to do so actually in the State of Kentucky instead of our home." |

What they suggest work on post, then drive back to Class pick kids up to take them back to Post?? No!! We need one available to entire family conveniently located within area our taxes are paid I've said repeatedly... Clarksville really needs to do better, so much better in considering and showing appreciation to it military citizens, particularly their families as well as local residents! This city can't continue to take from our troops while offering nothing back in return. Being stationed at Ft. Campbell should not be considered by troops & family as a hardship tour because it's boring as hell and all things so inconveniently out of reach. Because this area is highly populated with military and locals. It should get a higher priority and appreciation" |

| Diane Neely      | Clarksville, TN   | 2016-06-13 | "My son is 10 years old and has played hockey for the last two years. The closest ice is in Nashville. We moved from exit 4 to exit 11 to help make our 4 day per week drive easier. It is still a long drive so our next move will be to Pleasant View unless Clarksville builds this complex. There are so many children that would benefit from this. Clarksville is a melting pot of kids from all over. I truly believe that by building this complex, hockey would take off very quickly with these kids." |

| Jose Julia         | Clarksville, TN | 2016-06-14 | "Is always a great to grow, to grow the sports options for all our athletes. My recommendation would be to allow new growing sports in our area, LACROSSE would be a top option since there is a hunger to play this sport locally. What I don't understand is.... if the majority of the citizens want this to be at the Tiny Town location, why is the Mayor so adamant about it being at the Rossview location? | Charles Neely      | Clarksville, TN | 2016-06-14 | "The Clarksville metro area is in desperate need of this complex and, if planned and managed properly, could become revenue neutral or revenue producing. The one addition that I would propose is the inclusion of an ice skating/ice hockey complex. The city of Antioch has partnered with the Nashville Predators and the NHL, as well as Ford Motor Company to build a very successful facility in the Ford Ice Center. Even with this, there is a deficit of ice in the Middle Tennessee area. The Ford Center and Centennial Sportsplex have a very difficult time meeting even a small portion of the current demand. A facility in Clarksville would open up the opportunity for the Youth of the Clarksville Metro area to pursue ice sports." |

| Jeffrey King       | Clarksville, TN | 2016-06-14 | "This is long over due for the tiny town area. One thing I would really like out of this facility is an ice rink. If memory serves me correct the Nashville Predators were going to build a facility in Clarksville but the city turned down the offer because they didn't want to deal with the up keep of the facility. This sports complex would be a great addition to the area of it includes a rink so we can get some HOCKEY time." |

If we build it, it will attract not only those who already exercise, but it will motivate the people who are unmotivated and help the cause towards the fight against obesity."                                                                                                                                                                                                                                                                            |

| cody grisham        | Clarksville, TN | 2016-06-14 | "I am a certified fitness coach at Crossfit SolaFide. I specialize in bodyweight workouts and frequently host free workout sessions at outdoor fitness facilities in hopes to inspire more people to get active. I believe a recreational facility would be, not only a great addition to the city, but a huge step toward a health conscious Clarksville. I believe the construction will show that the city cares about the health of the men, women, and children that make it so great. I sincerely hope this petition goes through!" |

How can Kroger somehow purchase the land that previously has been said purchased by the city? Did the city sell out to them? Also if we're paying taxes. Also access to Fctky amenities.... what amenities.... their stuff is broke too.." |

| Steve Miller      | Clarksville, TN | 2017-05-25 | "This is a much needed addition to our Clarksville. Young people need places like this to grow and develop into well-rounded members of society. I agree with the author that North Clarksville deserves the attention of our city government. These aren't the housing areas with the big new expensive houses, like exit 11. This is where the everyday, normal, hard-working, blue-collar residents of Clarksville reside. As the area around Exit 1 continues to explode with growth, please don't neglect the need for safe, clean and healthy activities for our families." |
| Bianca LaRusch    | Clarksville, TN | 2017-05-25 | "I'm signing this because I have children that reside in Clarksville, as well as countless numbers of other children... and these children have nothing to do. Over the winter my son was involved with a basketball league that relied on local church support in order to play our games. If we had a complex, they would have a home for all of their practices and games. It's vital for our community! It would generate revenue and give plenty of job opportunities. Thanks!"                                                                                              |
| Bethany P         | Clarksville, TN | 2017-05-25 | "I support this petition due to the face that military families who have invested in this area by buying property still deserve to be a part of the community separate to the preconceived idea that we have post benifits. From exit 4/1 and how the area is set up, military or not, as a dependent I never go to post. It isn't feasible. It's too far. Furthermore, we are civilians. Despite popular belief, dependents have separate lives than their serving husbands and most of our contributions are here, in the civilian side of things."                             |

| Bill Summers       | Clarksville, TN   | 2017-05-27 | "Tiny Town is the best location to serve the thousands of children that live in that area and have no major sports facility to use. Also, until the consolidation issue is settled, it is a mistake for the city to spend city taxpayer dollars in a county location. The council has already turned down one Annex request in the exit 8 area a year or so ago." |

| Jennifer Smith     | Clarksville, TN    | 2017-12-19 | "I pay my taxes to Clarksville, not Fort Campbell and since I'm a veteran and not active duty I do NOT have access to most the amenities on Fort Campbell. A facility nearby that allowed my child and I participate in some physical fitness activities would be very welcome. Most gyms don't allow kids under 13 to exercise along side their parent. But every parenting resource out there says its best to be active with your children regularly so they grow up knowing the value of fitness and good health." |

| Carla Hatter      | Decatur, TN        | 2018-05-18 | "Kids need some type of activity on this side of town. Right now in order for our children to play on a basketball court we have to travel all the way over to Sango or to New Providence. It would also help with bringing so many of our AAU teams back to Clarksville!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Thomas Wolfe      | Goodlettsville, TN | 2018-05-20 | "Our area of the city has very little in the way of parks or other gathering areas. It's really sad that the city would allow the builders to put in all these subdivisions without any consideration for recreation and socializing. Sidewalks would be great, too."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| Tina Standridge   | Clarksville, TN    | 2018-05-20 | "Exit 8 is not convenient for those who live in the Tiny Town area. My husband and I have lived in this area for nearly 14 years and have paid property taxes these entire 14 years. We have watched the growth in this area. From Tiny Town Rd being a two lane road to what it is now. To include my husband and I, the growing number of military staying in Clarksville after their contract is complete is growing exponentially. Not everyone has access to Ft. Campbell because most are not retired. My children have gone to Barker's Mill Elementary School since kindergarten and now my eldest is at West Creek Middle School. It is the duty of Clarksville to serve all of its population. If the new community center is in fact for north Clarksville then it should be built in north Clarksville. It is unfair to assume everyone in north Clarksville has access to Ft. Campbell when we don't. North Clarksville deserves as much of share community services as the rest of Clarksville. What happened to taking care of your veterans?" |

This is great and much needed for a well established and growing area of North Clarksville. Great people are here and entire neighborhoods are being built in North Clarksville, in addition to well established businesses. It's pass time the city of Clarksville take interest and invest in North Clarksville being close to Ft Campbell from which the entire city benefits greatly." |

## RESOLUTION 56-2020-21

### RESOLUTION DECLARING THE CITY OF CLARKSVILLE TO BE A “SECOND AMENDMENT SANCTUARY CITY”

*WHEREAS*, in 2020, Senate Bill SB1807 and House Bill HB1873 were filed in the 111<sup>th</sup> General Assembly of the State of Tennessee, which bills purported to authorize the issuance of extreme risk protection orders, also known to some as a “red flag law,” that would allow a court to issue an emergency protection order upon a finding that a person poses an imminent risk of harm to themselves or others if allowed to purchase or possess a firearm; and authorized a family member, household member, intimate partner, or law enforcement officer to petition for such an order; and

*WHEREAS*, the Constitution of the State of Tennessee, at Article I. Declaration of Rights, Section 26. Right to bear arms, provides as follows: “That the citizens of this State have a right to keep and to bear arms for their common defenses; but the Legislature shall have power, by law, to regulate the wearing of arms with a view to prevent crime;” and

*WHEREAS*, the Constitution of the United States, Second Amendment [Right to bear arms], provides as follows: “A well-regulated militia, being necessary to the security of a free state, the right of the people to keep and bear arms, shall not be infringed,” said amendment being adopted in 1791 as part of the “Bill of Rights,” which protects the inalienable and individual right of the people to keep and bear arms; and

*WHEREAS*, the United States Supreme Court in District of Columbia v. Heller, 554 U.S. 570 (2008), affirmed an individual’s right to possess firearms; unconnected with service in a militia, for traditionally lawful purposes, such as self-defense within the home; and

*WHEREAS*, the United States Supreme Court in McDonald v. Chicago, 561 U.S. 742 (2010), affirmed that the right of an individual to “keep and bear arms,” as protected under the Second Amendment, is incorporated by the Due Process Clause of the Fourteenth Amendment and therefore made applicable to the states; and

*WHEREAS*, the United States Supreme Court in United States v. Miller, 307 U.S. 174 (1939), ruled that firearms that are part of ordinary military equipment, or with use that could contribute to the common defense, are protected by the Second Amendment; and

*WHEREAS*, it is the desire of the City of Clarksville to declare its support of the Second Amendment to the Constitution of the United States, and of Section 26 of Article I of the Constitution of the State of Tennessee, and to protect law abiding citizens right to keep and bear arms; and

*WHEREAS*, each of the City Council Members of the City of Clarksville took an oath to support the Constitution of the United States, and the Constitution of the State of Tennessee.

*NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF CLARKSVILLE, TENNESSEE:*

That it hereby declares the City of Clarksville to be a “Second Amendment Sanctuary City”, meaning that the City of Clarksville will provide a haven for, and shall support and protect the Constitution of the United States, to include the 2<sup>nd</sup> Amendment right of all law abiding citizens to keep and bear arms, and the same right pursuant to the Constitution of the State of Tennessee, Article I. Declaration of Rights, Section 26, respecting the rights of all law-abiding citizens to keep and bear arms.

*ADOPTED:*

# National Association for the Advancement of Colored People

Clarksville-Montgomery County Branch, National Association for the Advancement of Colored People oppose declaring the City of Clarksville as a Second Amendment Sanctuary City.

**Whereas**, the National Association for the Advancement of Colored People (NAACP) will always support the rights of every citizens of the United States of America to bear arms. And,

**Whereas**, as with all rights, we must ensure that every reasonable measure is taken to protect and preserve human life. And,

**Whereas**, laws/ordinances that allow unrestrictive gun ownership and exhibition are harmful to all citizens and do not reflect a common-sense approach in governance. And,

**Whereas**, the adoption of this resolution would put the law enforcement agencies within the city of Clarksville and Montgomery County at odds with state and federal laws. And,

**Whereas**, declaring the City of Clarksville as a Second Amendment Sanctuary City would be an encouragement to some residents of this community to not obey the law. And,

**Whereas** declaring the City of Clarksville as a Second Amendment Sanctuary City has the impetus to encourage individuals residing outside of this area to migrate to the city due to the laxity in judgement exhibited by this ordinance.

**Therefore, be it resolved that**, the Clarksville-Montgomery County, Tennessee Branch #5582, of the National Association for the Advancement of Colored People opposes the city resolution to declare the City of Clarksville a Second Amendment Sanctuary City.

**Be it Finally resolved that**, the Clarksville-Montgomery County, Tennessee, Branch #5582, of the National Association for the Advancement of Colored People encourage members of the Clarksville Tennessee City Council to vote 'No' on this ordinance.

*Given under the hands of the undersigned on February 26, 2021 by the Clarksville-Montgomery County Branch #5582 of the National Association for the Advancement of Colored People.*
